

Information regarding the Bayshore Special Road District:

A reminder that your HOA is not responsible from the maintenance of our roadways. That task falls to the Bayshore Special Road District, one of 84 such entities in the State of Oregon. Staffed by volunteers, they help to apply the portion of your property taxes that is earmarked for your roads towards maintenance and upgrades. Below is their new website's link we added to our own website for your convenience. On their website you will find a "contact us" link where you can submit questions and concerns. They will be posting their meeting minutes on their website for easy access.
